FRUIT FEEDER PACIFIER

# *Favorite Fruit*

Neno Frutta is a teether with a mesh container through which fruit and vegetables can be safely given to your toddler. Frutta makes it easier to learn to chew food while eliminating the risk of choking. In addition, it is ideal for expanding your child's diet and provides a healthy supply of valuable vitamins and minerals through snacks.

# Comfortable Cleaning

The silicone pacifier is incredibly easy to clean - simply wash it in warm soapy water to wash off any food residue from the pacifier. The product is made of durable silicone and has a rubber handle, so it can be sterilized in boiling water.

silicone pacifier with mesh

anti-bacterial cover

## Safe

Neno Frutta is made from soft and safe silicone which is 100% BPA-free. The teether is secured with an antibacterial cap that keeps the silicone mesh clean.

# Multifunctional

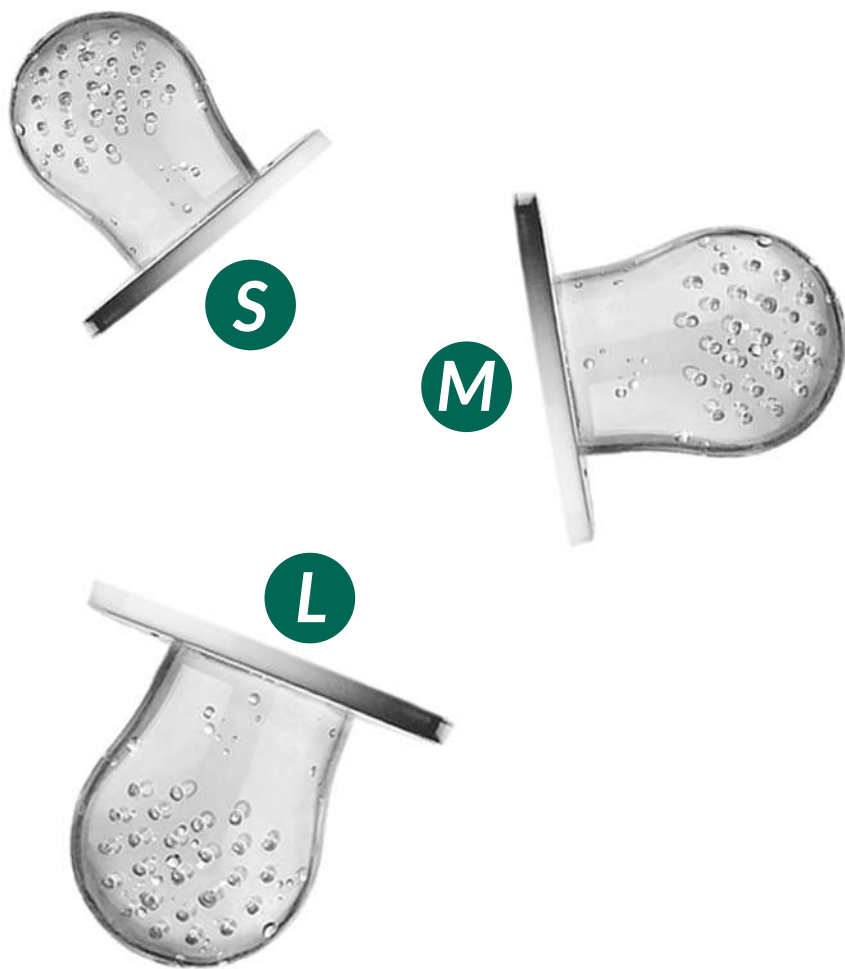

The Neno teether combines the functionality of a teether as well as a pacifier. The soft silicone combined with a textured surface gently soothes the baby's gums while teething and the shape of the pacifier will help the baby get used to new foods while maintaining a natural suckling reflex.

# Three Teat Sizes

Neno Frutta has been equipped with as many as 3 teats to serve fruit!
