## DEAR MOM!

*Every moment of rest or time spent with your child is worth its weight in gold.*

*So don't waste your time on activities in which you can be replaced by a device created especially for this purpose. Neno's mission is to make sure that in this most beautiful, but also most difficult time, every Mum can feel real support in our products. That is why Neno electric breast pumps, aspirators, nebulizers, baby monitors, thermal cups and toothbrushes help make everyday life easier and more pleasant for both parents and their babies.*

# THREE PHASES OF OPERATION

## 1 Stimulation mode:

Intense and shallow movements  
Stimulate the breast to produce milk

## 2 Expression mode:

Long and deep movements ensure  
efficient milk collection

## 3 Letting go phase/mixed mode:

The mixed mode mimics your baby's  
natural sucking pattern, imitating the  
speed and strength of your infant's  
suction. Ideal at the end of pumping to  
effectively empty the breast and  
increase milk production.

A single breast pump with a pink motor and a clear plastic collection bottle. The pump is shown with water droplets on its surface, emphasizing its waterproof nature. The brand name 'neno' is visible on both the motor and the bottle. The background is a light blue gradient with floating water droplets.

IPX6

## WATER-RESISTANT

Neno Perfetto single breast pump is IPX 6 waterproof, which means that even if the device gets wet, it still retains its properties. You can therefore successfully wash it under running water or even use it in the shower. This is especially valuable during breast pumping, when the water helps to relax and widen the flow in the milk ducts.

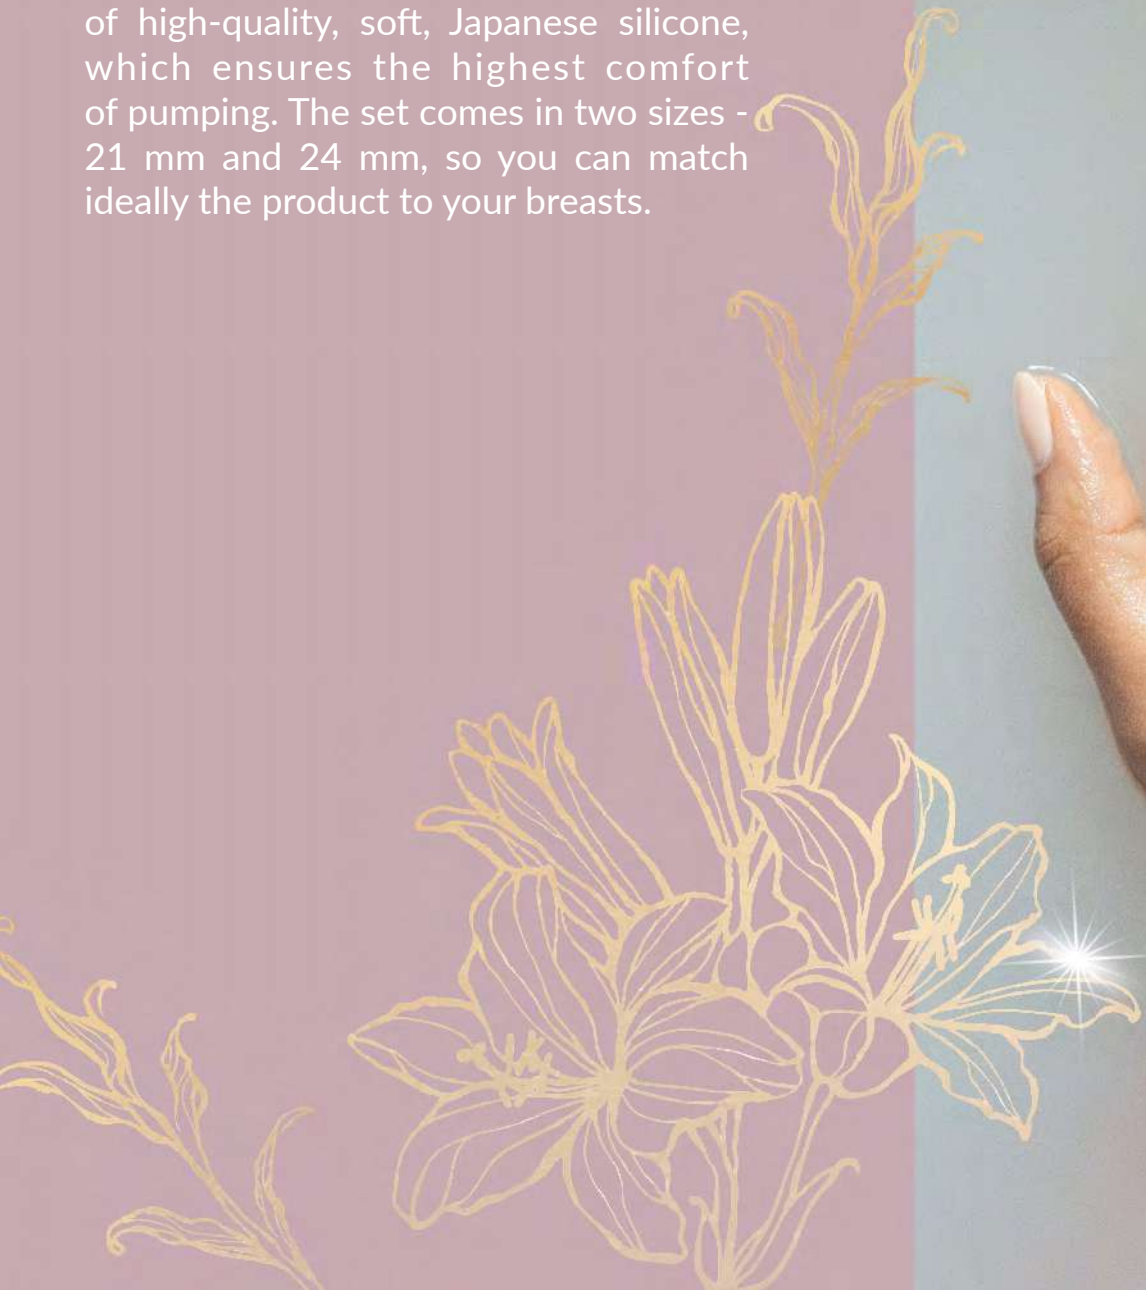

## THE COMPLETE PACKAGE

In the set with Neno Perfetto breast pump you get scratch-resistant bottle with base, teat and plug, velvet storage bag, breast shields in two sizes: SLIM 21 mm and MEDIUM 24 mm, as well as two convenient breastmilk storage bags with connector, which you can also buy additionally in sets of 20 pieces. Thanks to this solution, you can express breast milk directly into the bag and easily freeze it.

## GENTLE BREAST SHIELD

All Neno breast shields are made of high-quality, soft, Japanese silicone, which ensures the highest comfort of pumping. The set comes in two sizes - 21 mm and 24 mm, so you can match ideally the product to your breasts.

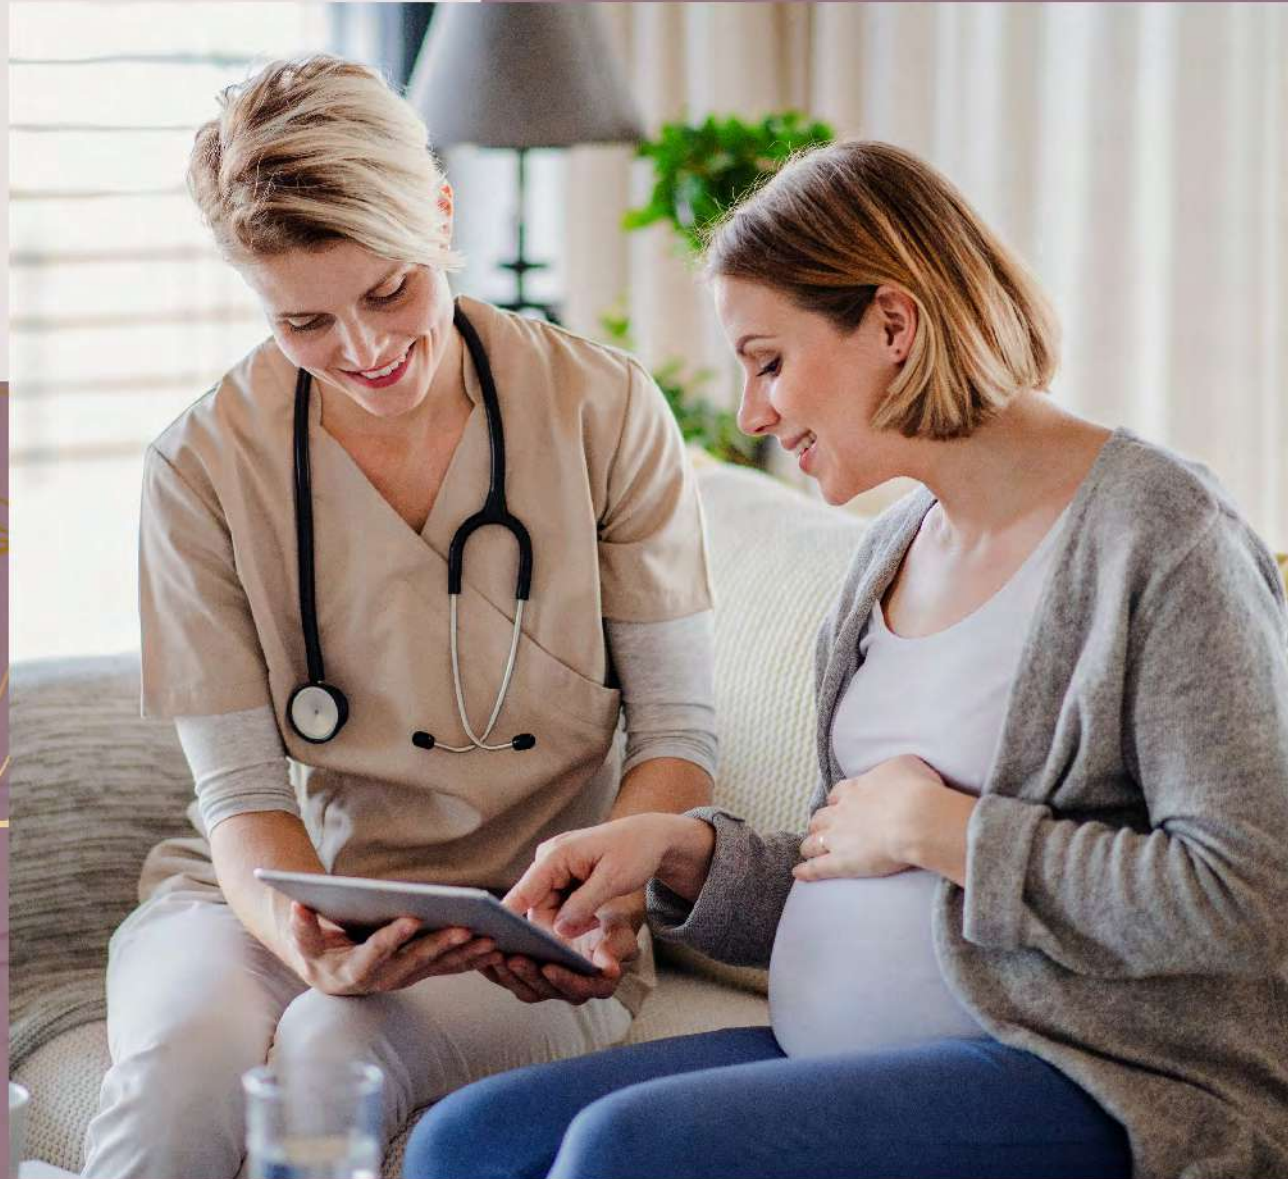

## *PREMIUM BOTTLE*

The bottle, which is a part of the set, is completely safe for children and BPA-free. Moreover, it is characterized by high heat resistance and less susceptibility to mechanical damage and possible scratches

## CARED FOR

Neno brand is most often recommended by moms, midwives and certified lactation consultants. You can be sure that these are the highest quality products, consistent with current medical knowledge.

# ACCESSORIES AND SPARE PARTS

Neno brand has in its assortment a whole range of spare parts for breast pumps in the form of: valves, diaphragms and exchangeable breast shields. You will find all the replacement parts in a convenient Neno Spare kit. It is a guarantee of proper work of the breast pump, which will serve you for many years.

## *TAILORED TO YOU*

In each of the three phases: stimulation, active intake and mixed, the breast pump operates at up to 9 levels of adjustment. This guarantees effective and efficient milk extraction

## TAKE IT ANYWHERE

Because of its compact size and low weight the Neno Perfetto breast pump fits easily into a woman's purse. So you can always have it with you and pump whenever you feel the need. Quick and easy USB-C charging and a battery that lasts up to 4 full pumping cycles on a single charge give you the freedom and confidence that nothing will surprise you.

# IDEAL FOR A BABYSHOWER WITH NENO

Neno Perfetto is a breast pump from the premium segment – the unique design enriched with gold elements, velvet case and beautiful box make it an ideal element of a layette. It is also a perfect bybyshower gift for a loved one. The rich assortment of the Neno brand makes it easy for you to gather all the products necessary for taking care of the newborn.

## *ELEGANT DESIGN*

We took care not only of the functionality of Neno Perfetto breast pump, but also about its design.

The product is modern and subtle in its color scheme, thanks to which it will surely meet the taste of the most demanding moms.

## EASY STERILIZATION

You can sterilize Neno Perfetto using traditional methods with boiling water or you can use professional products designed for disinfection (e.g. Neno Vita). It takes just 10 minutes to sterilize breast pump parts using our dedicated product!

## MEDIA SEPARATION

Safety above all else – this idea has guided us in the development of our breast pumps. The diaphragm and valve, which are part of the set, effectively prevent milk from entering the pump of the device. The diaphragm forms a line between the pump and the bottle, while the valve prevents the milk from flowing back. This solution guarantees hygiene and prevents the multiplication of bacteria in undesirable places.

## JUST A TOUCH

Thanks to the intuitive touch panel, operating Neno Perfetto is a pleasure. With just one touch, you can change the mode or power and adjust the device to your needs. The breast pump will remember the settings and the next time you use it, it will start according to your preferences.

# AIR SUCTION TECHNOLOGY

AIR SUCTION technology, used in Neno funnels, is responsible for perfect imitation of natural sucking reflex of a baby. It also guarantees comfort and convenience for the nipple, more efficient milk extraction and protection against pressure on milk ducts. It also guarantees comfort for the nipple, more efficient pumping, and prevents milk ducts from being pressed.
